Notice of Revisions to Performance Forecasts

We hereby announce that, based on recent business trends, we have decided to revise the full-year performance forecasts for the fiscal year ended March 31, 2026, which were announced on May 14, 2025, as follows.

Details

1. Revisions to Performance Forecasts

Revisions to Non-Consolidated Performance Forecasts for the Fiscal Year Ended March 31, 2026 (April 1, 2025 - March 31, 2026)

	Sales	Operating profit	Ordinary profit	Profit	Profit per share
	Million yen	Million yen	Million yen	Million yen	Yen
Previous forecast (A)	8,437	915	877	527	19.45
Revised forecast (B)	9,441	700	658	322	11.88
Change (B-A)	1,004	(-214)	(-219)	(-205)	(-7.57)
Change (%)	11.9	(-23.4)	(-25.0)	(-38.9)	(-38.9)
(Ref.) Previous Year Results (FY ended March 2025)	7,947	875	919	569	21.00

2. Reasons for the Revision

Regarding full-year performance, sales are expected to exceed the initial forecast by 1,004 million yen due to the effects of human capital investment, including the proactive deployment of additional store staff. However, operating profit, ordinary profit, and profit are expected to fall below the initial forecasts by 214 million yen, 219 million yen, and 205 million yen, respectively, as the effects of increased sales will be offset by higher

personnel expenses associated with the increase in staff. We believe that appropriate staffing will contribute to the improvement of store sales and profitability over the medium to long term.

(Note) The performance forecasts contained in this document are calculated based on information available at the present time. Actual results may differ from the projections presented in this document due to various factors.
