2. Reason for dividend

We hold our profit return policy in high regards to give back to shareholders by expanding its business foundation and progressing its financial ground. Our business is mainly divided between the E-Commerce Business and the Incubation Business. The Incubation Business in particular is extremely volatile as it depends on the opportunity to monetize our operational investment securities. As such, we will be basing our dividend policy on the profits in our more consistent E-Commerce Business and use the proceeds from the Incubation Business towards other profit reductions methods such as share repurchases as we monitor our share prices.

The dividend for this year has been raised by 2 JPY to 20 JPY after considering the financial results, financial soundness and the internal reserve for the furtherment of the company.
