Number of Packages Handled in the Delivery Business during September 2020

SG Holdings Co., Ltd. (Head Office: Minami-ku, Kyoto; Chairperson and CEO: Eiichi Kuriwada) announces the number of packages handled by month in the Delivery Business during September 2020 as follows:

(YoY change: Weekdays +1, Saturdays ±0, Sundays and holidays -1)

	Actual (September 2020)	Change %
Total number of packages handled	114 million	+0.8%
Hikyaku Express	109 million	+1.4%
Other	4 million	-10.5%

The number of packages handled during September 2020 was 114 million packages, +0.8% year-on-year. Although the impact of last-minute demand before the hike in consumption tax rate seen in the previous year disappeared, the one-day increase in weekdays compared to the previous year resulted in the increase. The increase in the number of BtoC packages remaining at a high level, caused by the increase in e-commerce demand due to COVID-19, also contributed to the increase.

Notes: 1. The total number of packages handled is the number of packages handled through the SG Holdings Group's major services.
2. The number of packages handled through Hikyaku Express is the number of packages Sagawa Express Co., Ltd. reported to Japan's Ministry of Land, Infrastructure, Transport and Tourism.
3. Other includes packages handled through Hikyaku Large Size Express provided by Sagawa Express Co., Ltd. and packages handled through other companies.
4. The total number of packages handled is rounded down to the nearest million, and the change % is rounded to one decimal place.
