Notice Concerning Removal of References to "Significant Events, etc. on Going Concern Assumption"

Robot Home, Inc. (the "Company") hereby announces that it has removed references to "Significant events, etc. on going concern assumption" from its "Consolidated Financial Results for the Three Months Ended March 31, 2021 [Japanese GAAP]" announced today.

The Group had recorded operating losses, ordinary losses, and losses attributable to owners of parent for two consecutive fiscal years through the fiscal year ended December 31, 2020, giving rise to events and conditions that may cast significant doubt on the Company's ability to continue as a going concern.

However, in the three months ended March 31, 2021, the Company has transformed its revenue structure to a stock business (subscription) and engaged in ongoing cost reductions through drastic cost review initiatives, recording operating profit of ¥135 million, ordinary profit of ¥160 million, and profit attributable to owners of parent of ¥143 million as a result. The Company has also secured an end-of-quarter fund balance of ¥5,857 million and, upon consideration of the future funding situation, it has determined that there are no concerns over the continuity of business activity for the foreseeable future.

As a result of a comprehensive assessment of these circumstances, the Company has determined that the events and conditions that may cast significant doubt on the Company's ability to continue as a going concern have been eliminated at the moment.

The Company has caused great concern to shareholders, business partners, and other relevant parties, but through the recovery of its business performance, it has achieved the elimination of significant doubt on the going concern assumption. The Company will continue its efforts to further improve its business performance and enhance its corporate value, and we look forward to your continued support.
