Company Name JAPAN ECOSYSTEM CO., LTD.
Name of Representative Minoru Matsushima, President
(Code: 9249 Second Section of the Tokyo Stock Exchange and
the Nagoya Stock Exchange)
Inquiry Destination Atsuhiko Ino Director in charge of the Management Division
Phone Number +81-586-64-9249

Notice regarding Registration of Our Product Marox® Series by USPTO

We are pleased to inform that an applied US patent for the Marox® series, the products developed, manufactured and sold by the Company, has been registered by the United States Patent and Trademark Office (USPTO) as follows.

Title of the invention WATER TREATING AGENT AND KIT AND METHODS FOR PRODUCING AND USING
Patent Number US 11,186,508
Date of Patent November 30, 2021

As a leading company in the environment and society, we are aiming at a sustainable development of local economies and society by engaging in corporate activities with maximum consideration for the environment and society. In order to achieve this, our research is being conducted by our environmental business unit primarily to develop new formulations that change the conventional concept of wastewater treatment day to day

This time, A patent that have been applied for some time has been registered by USPTO. This patent provides a method for manufacturing the water treatment agent useful for reducing such as mixed liquor suspended solids (MLSS) in such as food factory effluents, and the total nitrogen in water to be treated containing nitrogen-containing compounds, a method for treating water to be treated using the water treatment agent, and a kit for manufacturing the water treatment agent.

Using advanced technologies in this patent, we will develop, manufacture, and sell new products that are compatible with low costs and legal compliance, and contribute to prevention of environmental pollution in the United States, assurance of secure lives, and building sustainable society.
