Mr. Sasaki has considerable experience and professional knowledge in law as Chief Justice of the Takamatsu High Court and Chief Justice of the Osaka High Court, so the Company considers him qualified as an outside Audit & Supervisory Board Member and has appointed him. Further, because the Company has specified criteria for determining independence of outside Officers, i.e., not having any special conflict of interest relationship with the Company impacting decision-making, and Mr. Sasaki satisfies those criteria, the Company judges that he is adequately independent and that there is no concern that there will be a conflict of interest with general shareholders.</p>

Furthermore, the Company has business transactions, such as gas supply contracts, with a corporation related to Ms. Nashioka. However, the amount paid is less than 2% of the consolidated net sales of the corporation, and the amount received by the Company from the corporation is less than 2% of the Company's consolidated net</p>

This policy is summarized as below. The system of paying retirement benefits to Directors has been abolished.

< Policy on Determining Remuneration >

a. Basic Approach

Remuneration for Directors shall be provided in a remuneration system designed to raise motivation for Directors to achieve sustainable growth and mid- to long-term increase in corporate value. Remuneration for Directors other than outside Directors shall consist of basic remuneration as fixed remuneration, performance-linked remuneration and stock-based remuneration, and remuneration for outside Directors shall only consist of basic remuneration as fixed remuneration, as they have a standpoint independent of business execution.

Remuneration for Directors shall be determined within the total amount of remuneration approved at the Annual Meeting of Shareholders, after deliberation at a voluntarily appointed advisory committee made up of a majority of the outside Directors, from the perspective of ensuring objectivity and seeking transparency in the decision-making process.

b. Basic Remuneration

Basic remuneration shall be monetary remuneration paid on a monthly basis. The amount shall be determined in accordance with the rules prescribed by the resolution of the Board of Directors, while considering such factors as each Director's position and responsibilities, public standards, and other factors.

c. Performance-linked Remuneration

Performance-linked remuneration shall be monetary remuneration paid on a monthly basis. The amount shall be determined using the profit attributable to owners of parent for the past three years and ESG Indicator Achievement Factor for previous year (*1) as the main indicator to encourage contribution to short-term and mid- to long-term increases in corporate value.

d. Stock-based Remuneration

Restricted stock shall be granted at a certain time every year for the purpose of strengthening the linkage

between remuneration and mid- to long-term increase in corporate value and further promoting sharing of value with the shareholders. The number of shares to be granted shall be determined with consideration for the positions and responsibilities of each Director and stock prices, etc. (*2)

e. Ratio by Type of Remuneration

For Directors other than outside Directors, the standard ratio of basic remuneration, performance-linked remuneration, and stock-based remuneration should be 5:4:1. Remuneration for outside Directors shall fully consist of basic remuneration.

g. Procedures for Determining Remuneration

The content of remuneration for each individual Director shall be made in accordance with the rules prescribed by the resolution of the Board of Directors, and, after deliberation at the voluntarily appointed advisory committee, shall be determined by the resolution of the Board of Directors. However, the content of monetary remuneration may be determined by the Representative Director and President based on delegation of authority by the resolution of the Board of Directors.

(*1): By resolution of the Board of Directors meeting held on December 23, 2021, a change was made to add a coefficient for the achievement level of ESG indicators for the previous fiscal year. The change will be applied from July 2023 onward, when compensation is paid based on FY2022.3 results.

(*2): In the event that the grantee of stock-based compensation commits an act of misconduct, files a petition for commencement of bankruptcy proceedings, or falls under other certain events stipulated in the restricted stock allotment agreement, the Company will naturally acquire all or part of the allotted shares without compensation (Malus and Clawback clauses).

(ii) Resolution of the Annual Meeting of Shareholders on Remuneration, etc. of Directors

The amount of remuneration for Directors was approved at the 203rd Annual Meeting of Shareholders held on June 25, 2021 to be up to 57 million yen per month for the monetary remuneration quota, within 72 million yen per year for the stock remuneration quota, and within 48,000 shares per year for the maximum number of shares. The number of Directors at the end of said Annual Meeting of Shareholders was 10.

(iii) Delegation, etc. of Decision of Content of Remuneration, etc. for Each Individual Director

The amount, timing and method of remuneration payment for each Director in FY2022.3 is determined by Representative Director and President Masataka Fujiwara based on delegation of authority by a resolution of the Board of Directors. The Company has delegated the above authority to the Representative Director and President, as the position is considered to be the best suited to determine the contents of remuneration, taking into account the status of the execution of duties by each executive Director while maintaining a comprehensive view of the Company's performance.

In addition, to ensure that the authority of the Representative Director and President is exercised appropriately, the delegation of authority is conducted so that the remuneration amount, etc. for each individual Director is determined in accordance with the Policy on Determining Remuneration and the rules prescribed by the resolution of the Board of Directors, while considering such factors as each Director's position and responsibilities, public standards, and the Company's business performance, after deliberation at a voluntarily appointed advisory committee made up of a majority of the outside Directors. As the amount of remuneration, etc. for each individual Director is determined through such a procedure, the Board of Directors has judged that the content of remuneration, etc. for each individual Director for the fiscal year under review is in line with the Policy on Determining Remuneration.

(iv) Resolution of the Annual Meeting of Shareholders and Decision on Remuneration, etc. for Audit & Supervisory Board Members

The amount of remuneration for Audit & Supervisory Board Members was approved at the 176th Annual Meeting of Shareholders held on June 29, 1994 to be up to 14 million yen per month. The number of Audit & Supervisory Board Members at the end of said Annual Meeting of Shareholders was five.

The amount of remuneration for each Audit & Supervisory Board Member shall be determined through discussions among Audit & Supervisory Board Members within this amount, and consisting only of fixed remuneration because they are assigned the role of auditing the execution of duties by Directors from a standpoint independent of the performance of the Company's businesses, and taking into consideration the position, etc. of each Audit & Supervisory Board Member.

The system of paying retirement benefits to Audit & Supervisory Board Members has been abolished.

(5) Policies on Selecting Candidates for Directors and on Selecting and Dismissing Representative Directors and Other Executive Directors

To attain sustainable growth and improve medium- and long-term corporate value, candidates for Directors and Audit & Supervisory Board Members are in principle selected from a diverse group of people without regard to gender, nationality, career, or age etc., taking their knowledge, experiences, abilities, and personalities etc. into account.

In addition and in principle, based on medium- and long-term management plans, internal Directors and Audit & Supervisory Board Members shall have experience and expertise, etc. in corporate management, financial accounting, marketing, legal affairs and risk management, etc. of the Group, including the energy business, and outside Directors and Audit & Supervisory Board Members shall have not only independence that enables objective judgments but also wide-ranging knowledge, wealth of experience, and expertise in their specialized fields. Further, the Company has heretofore ensured agile adaptation to changes in the management environment and clarification of management responsibilities by setting the term of appointment for Directors at one year.

In selecting candidates for Directors and Audit & Supervisory Board Members and selecting and dismissing Representative Director and other executive Directors, pursuant to the above policy, the Company makes a decision based on the deliberation of a voluntary advisory committee in which outside Directors comprise a majority from the standpoint of securing objectivity and transparency of the decision-making process (the composition of the voluntary advisory committee is the same as the remuneration advisory committee.)

3. Reasons for Adoption of Current Corporate Governance System

The Company considers its current governance system best suited in order to respond swiftly to changes in the Group's business environment, make transparent, fair and decisive decisions, and implement efficient and appropriate actions. The reasons are as follows:
