Announcement of Partnership with Hoseki to Verify Bitcoin Holdings

Metaplanet Inc. is pleased to announce a strategic partnership with Hoseki, a global leader in Bitcoin verification solutions, to utilize their Hoseki Verified product. This partnership will enhance transparency and trust in Metaplanet's Bitcoin holdings.

Setting a New Industry Standard

As Bitcoin adoption proliferates globally, the importance of transparency cannot be overstated. The partnership with Hoseki aligns with Bitcoin's "Don't Trust, Verify" ethos and pioneers transparency in a world where money exists on a transparent, auditable global ledger.

This marks the beginning of a series of initiatives Metaplanet will undertake to uphold and advance these principles. Metaplanet invites entities in Japan and globally within the Bitcoin ecosystem to join this initiative for a transparent Bitcoin investment landscape.

With Hoseki Verified, investors and corporations can verify the integrity and transparency of their Bitcoin holdings, contributing to a trustworthy ecosystem and corporate standard.

Investors can access the link below for verification by Hoseki Verified:
