ExaWizards Inc. (TSE 4259)

Notice Concerning the Start of Providing Construction Services for Generative AI Services for Tokyo Metropolitan Schools

The Company group today announced that it will begin providing services to the Tokyo Metropolitan Board of Education for the construction of a service using generative AI for Tokyo Metropolitan Schools.
The Company group will promote the safe and effective use of generative AI in Japanese school education by building a safe environment for use of generative AI, utilizing the exaBase Generative AI technology platform, for students and faculty members of metropolitan schools.

1. Description of services to be provided

Exa Enterprise AI, Inc., which is engaged in the Group's AI generation service, will take the lead in building the environment and related work necessary for metropolitan students to use the AI generation service, thereby contributing to the improvement of AI literacy among metropolitan students.

2. Future Policies

The Company group will build this project related to generative AI promoted by The Tokyo Metropolitan Education Commission's project involves constructing a Generative AI initiative for educational settings, enhancing productivity through digital transformation (DX) and talent development. Taking this project as an opportunity, we intend to expand the provision of our services and know-how to educational institutions and related organizations throughout Japan.

(1) Building a Generative AI environment leveraging the technological infrastructure of exaBase Generative AI.

(2) Support services related to this project and the utilization of Generative AI.

3. Project Schedule

・From May 2024 to the end of March 2025: Practical application across various subjects and school affairs at the 19 designated Generative AI research schools in Tokyo.

・From May 2024 to the end of August 2024: Establishing an education-focused Generative AI environment with the 19 research schools.

4. Impact on Business Performance

We recognize that this business will have a negligible impact on our business performance for the fiscal year ending March 31, 2025, but we believe that it will contribute to improving our business performance over the medium to long term.

We plan to announce our full-year financial results on May 14, 2024, at which time we will disclose our earnings forecast based on such performance.
