Monthly Report for September 2024

≪Total Sales≫

Total sales increased by 20.1% y-o-y to 1,756,881 thousand yen.

≪KeePer LABO Operation Segment (B-to-C)≫

In September, sales at all 124 directly managed stores increased 15.9% y-o-y to 965,268 thousand yen, and sales at 108 existing stores increased 6.7% y-o-y to 888,442 thousand yen.
In September, the Hiroshima Kannon store opened on the 20th in Nishi-ku, Hiroshima City, Hiroshima Prefecture, and the Shinagawa store opened on the 28th in Shinagawa Ward, Tokyo. This brought the total number of directly managed stores to 124.

| KeePer Coating Service Numbers

In September, 1,155 EX KeePer coatings were completed, marking a 26.7% year-on-year increase, and surpassing 1,000 cars serviced for the fourth consecutive month. The Diamond KeePer series also maintained steady growth with 4,229 services (a 7.1% increase). The combined service numbers for Crystal KeePer and Fresh KeePer grew by 16.1%, from 5,947 cars last year to 6,910 this year.
Additionally, the number of maintenance services for all KeePer coatings increased by 11.8%. As a result, every KeePer coating service has experienced growth.
The demand for "keeping cars looking beautiful for longer" remains high, which is contributing to both an increase in the number of services and a rise in the average price per service (17,729 yen per car, up 6.4%).

| Introduction of the 'Simple Reservation App' and Electronic Payment Services

The introduction of the Simple Reservation App has significantly reduced the effort required for making a reservation, allowing for a smoother booking experience. Although it's only been a few days since its launch, customers have provided positive feedback such as, "Booking is so easy now!" and "It’s dramatically more convenient and easier to use!" The app allows users to register up to three favorite stores and three of their own vehicles.
Going forward, we plan to enhance the app with features such as notifications when services are completed, viewing service history, and reminders for the next service date.

Additionally, starting October 1st, various electronic payment methods, including PayPay, have been made available at all stores. This provides greater convenience and allows us to accommodate a wider range of payment preferences.

≪KeePer Products Related Segment (B-to-B)≫

In September, sales in the KeePer Products Related Segment increased by 26.5% y-o-y to 782,204 thousand yen.

Although September wasn't as hot as August, the lingering heat was still intense. Despite the conditions, KeePer Pro Shops, which are central to the aftermarket, restored the number of Fresh KeePer services to a favorable pace.

We also held the Prefectural Champion Competitions, the ninth edition of our KeePer Technology Contest. At each venue, 1,800 technicians who had passed the preliminary rounds competed fiercely, creating a lively and exciting contest.
The only remaining event is the All-Japan Champion Competition, to be held on October 15th and 16th, where we will determine the best KeePer technician in Japan. With a record 5,124 participants in this year's contest, this is expected to contribute to an overall improvement in the technical skills of all KeePer Pro Shops. This will be a significant positive factor as we approach the peak demand period in December.

In the new car market, while the number of new car registrations (standard and compact passenger cars) increased by 1.1% year-on-year, KeePer product sales grew by 45.3% year-on-year across all channels. Progress with Toyota has been particularly notable, with an increasing attachment rate for KeePer coatings, especially for EX KeePer. Additionally, more companies are introducing KeePer coatings for used cars. This trend is being driven by businesses looking to compensate for future declines in vehicle inspection and service revenues, due to decreased new car sales during the COVID-19 pandemic, by leveraging the importance of coating maintenance revenue.

In non-automotive businesses, a major cleaning chain purchased large quantities of "Bathroom KeePer" and "Kitchen KeePer" products. These home-related coatings have also been launched as official services, and we expect further business expansion in the future.
