YAMASHIN-FILTER CORP.

Notice of commitment to obtain SBT certification

YAMASHIN-FILTER CORP (President: Atsuhiko Yamazaki) is pleased to announce that on July 11, we submitted a commitment letter to the Science Based Targets initiative (SBTi)*¹ to obtain certification for the Science Based Targets (SBT)*² greenhouse gas emissions reduction target set by the Paris Agreement and announced our aim to obtain the certification within two years. In order to obtain it, we will consider expanding the scope of GHG reduction not only to our own group but also to the entire supply chain of the group's business.

We will continue to strengthen our efforts to enhance our corporate value on a long-term sustainable basis and fulfill our social responsibility as a comprehensive filter manufacturer contributing to sustainable social and economic activities under the motto of Environment, Air quality, and Health.

*1 A joint initiative of CDP (formerly the Carbon Disclosure Project), the United Nations Global Compact (UNGC), the World Resources Institute (WRI), and the World Wide Fund for Nature (WWF) to assess corporate greenhouse gas reduction targets.

*2 Greenhouse gas emission reduction targets set by companies consistent with the levels required by the Paris Agreement, with targets set five to ten years into the future.
