“GLOBAL WiFi®” partners with Fast Doctor, Inc. to provide “Online Health Consultation” as an optional service that allows customers to consult online about health concerns while traveling abroad

“GLOBAL WiFi®” (<https://townwifi.com/>), an overseas-use Wi-Fi router rental service operated by Vision Inc. (Headquarters: Shinjuku-ku, Tokyo, President, Representative Director and COO: Kenji Ota, hereinafter the Company), started providing “Online Health Consultation” as an optional service for “GLOBAL WiFi®” on July 30 in partnership with Fast Doctor, Inc. (Headquarters: Shibuya-ku, Tokyo, Representative Director: Ryo Kikuchi (Doctor) and Takashi Mizuno), a health tech company that operates “Fast Doctor (hereinafter Fast Doctor),” which is one of the largest medical platforms in Japan.

Details and Features of the “Online Health Consultation (hereinafter the Service)” as an Optional Service

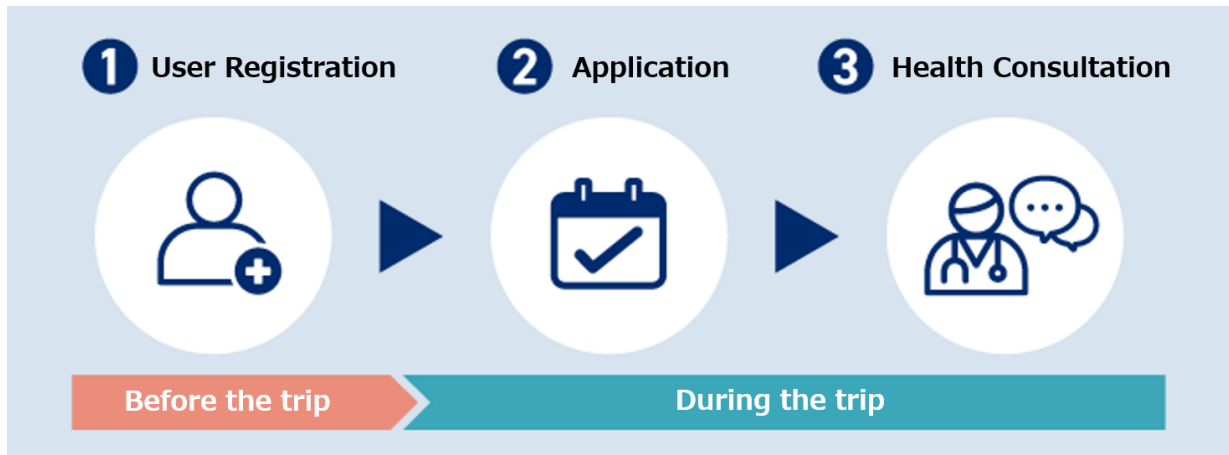

The Service, which can be added as an optional service when applying for “GLOBAL WiFi®,” allows customers to consult about any health concerns they may have while traveling abroad by an Internet-based videophone through Fast Doctor.

The Company hopes that it will serve as a bridge between “GLOBAL WiFi®” users during travel abroad and Fast Doctor and help them be prepared to respond calmly when health concerns arise in unfamiliar environments, such as when traveling abroad for the first time or with the family.

Optional service fee: 330 yen per day/person (tax included)

- After applying for the Service, the prospective user must register. (Up to 3 persons can be registered for each Wi-Fi rental application.)

- A dedicated consultation application form is issued to each user to apply for consultation when health concerns arise while traveling abroad.
- Applications and consultations are available 24 hours a day, 365 days a year.
- After applying, Fast Doctor will send you a URL for an Internet-based videophone, which you can access for a health consultation.
- The Service provides health consultation in Japanese.

- * The Service is an online exchange of information, but it is limited to the provision of general medical information. It is not intended to make medical judgments, such as the presentation and diagnosis of the possibility of disease based on the individual condition of customers. Health consultations are conducted by medical institutions affiliated with Fast Doctor.
- * Internet environment is required to use the Service.
- * Depending on the signal conditions, the system may switch to voice calls.
