**Installed “Smart Pickup” Lockers at Hiroshima Airport to allow customers to pick up  
“GLOBAL WiFi®” without waiting in line at the counter.  
The first store opened in Western Honshu.**

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting People, Connecting the World,” installed “Smart Pickup” Lockers on the domestic flight floor of Hiroshima Airport on October 24 to allow customers pick up and make same-day applications for “GLOBAL WiFi®,” an overseas Wi-Fi router rental service, and “NINJA WiFi®,” a Wi-Fi rental service for visitors to Japan. This is the first installation in Western Honshu.

Hiroshima Airport, with the largest passenger volume in Western Honshu, is located in the vicinity of two World Heritage sites, Itsukushima Shrine and the Atomic Bomb Dome, as well as other tourist attractions and historical sites, attracting many tourists from around the world. In addition, it has direct flights to major Asian cities such as Seoul, Taipei, and Shanghai, and is used not only by visitors to Japan, but also by many people departing from Hiroshima Airport for overseas destinations. Until now, customers using Hiroshima Airport for overseas travel have had to make advance home delivery or pick up and return “GLOBAL WiFi®” rental devices at other airport counters. However, with the installation of “Smart Pickup” Lockers and Return Boxes, they can pick up and return their rental devices at Hiroshima Airport at any time, regardless of departure or

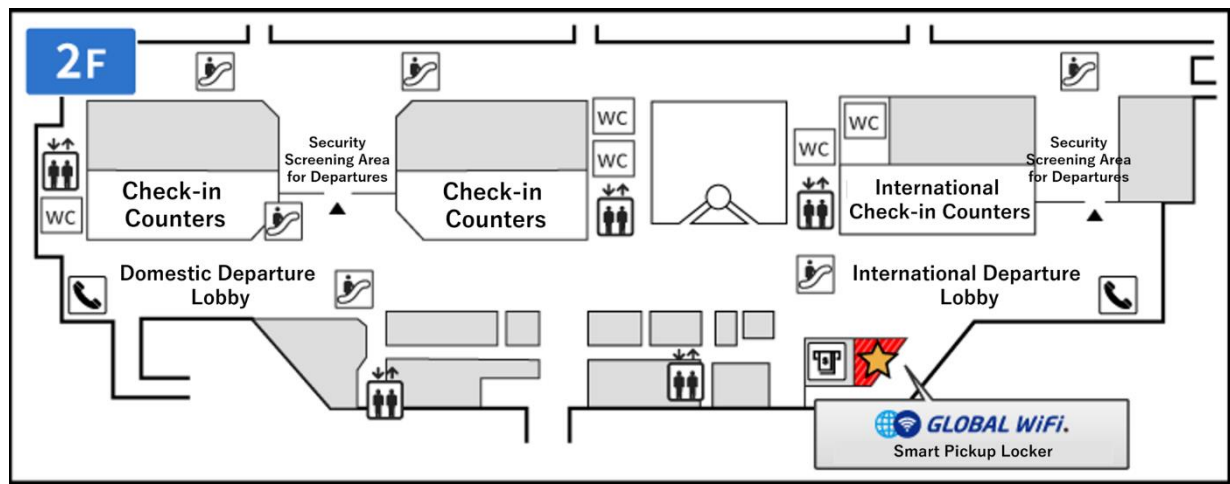

arrival time.

Furthermore, “Smart Pickup” Lockers can be applied for and picked up on the same day. For visitors to Japan, we anticipate that these lockers will be used as touchpoints where they can apply for and pick up after arriving in Japan or after traveling within the country.

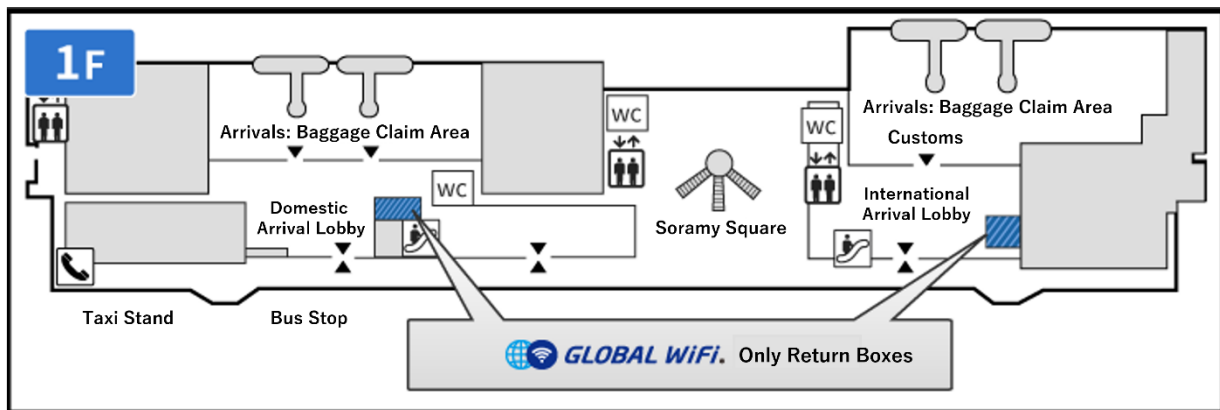

We will continue to expand our services in line with the usage scenarios of our customers, and will make efforts to enhance network quality and coverage areas to provide a comfortable mobile Internet access environment around the world.

■ “Smart Pickup” on the domestic flight floor of Hiroshima Airport

- Start date : Thursday October 24, 2024
- Location : Domestic flight floor of Hiroshima Airport
  - Smart Pickup Locker (1 unit on 2F domestic departure floor)
  - Return Box (1 unit each on 1F international and domestic arrival floor)

As there are no staff available, we are unable to provide detailed information on how to set up. If you have any questions, please contact our call center.

There are two return boxes, one in the domestic arrivals lobby and one in the international arrivals lobby. You can return your items at either location.
