Notice of Resumption of Operation of Tokushima-Tsuda Biomass Power Plant

RENOVA, Inc. ("RENOVA") announces that Tokushima-Tsuda Biomass Power Plant, which is owned by its consolidated subsidiary, Tokushima-Tsuda Biomass Power Plant G.K., resumed operation on July 30 upon completion of repair work, which had been carried out based on the results of regular inspection and maintenance work conducted in April 2024.

The plant is scheduled to shut down again to carry out construction work from late September 2024 to late December 2024 (planned), in order to install permanent improvements aimed at maintaining long-term stable operation.

The impact on the financial results for the fiscal year ending March 31, 2025 is already reflected in the forecast released on May 8, 2024.

RENOVA will promptly disclose any other matters that should be announced, as and if they arise.
