Notice Regarding a Commercial Contract for Docking Plates at Our UK Subsidiary

Astroscale Holdings Inc. ("we") hereby announces that Astroscale Ltd ("ASUK"), our UK subsidiary, has secured a large-scale repeat commercial order of its second-generation on-orbit servicing docking plates from a leading European aerospace manufacturer. Under the contract, ASUK will deliver an order of docking plates which will be placed on low Earth orbit ("LEO") satellites. These docking plates allow our customers to mitigate operational risk and enhance regulatory compliance where applicable by enabling the capability to remove satellites through our End-of-Life (EOL) service.

This significant contract highlights the growing industry recognition of our innovative approach to addressing the urgent need for a circular economy in space. The Astroscale second-generation docking plate is not just a product, but an important step toward expanding the application of on-orbit servicing, directly indicating the growing interest in EOL services that will drive the long-term growth of our business. Under this contract, the number of prepared satellites eligible for our EOL service is expected to exceed 1,000 in the future.

1. Contract Summary

Customer:	Not disclosed
Contract Amount:	Although this accounts for more than 10% of consolidated revenue for the fiscal year ended April 2025, it will have no impact on the consolidated earnings forecast for the fiscal year ending April 2026.
Delivery Timing:	To be made in installments from the fiscal year ending April 2027 and completed by April 2028.
Service:	Docking Plates for future End-of-Life Service (EOL)

The contract was agreed and signed on November 6, 2025 (UK time). Other specific details are not disclosed due to confidentiality requirements requested by the customer.

2. Impact on Financial Results

This booking has not been included in the assumptions for our consolidated financial forecast for the fiscal year ending April 2026. Since deliveries will take place during or after the fiscal year ending April 2027, this contract will have no impact on the consolidated earnings forecast for the fiscal year ending April 2026. Project income from this project is expected to be recognized upon delivery.
