"exaBase IR Assistant" Introduced to Konica Minolta

- Improving Dialogue with the Capital Markets Using Generative AI x IR-Specialized Products -

Exa Enterprise AI Inc. (Minato-ku, Tokyo; Representative Director: Takuma Oue; hereinafter “Exa Enterprise AI“), a group company of ExaWizards Inc., is pleased to announce that Konica Minolta, Inc. (hereinafter "Konica Minolta") has started the implementation of our "exaBase IR Assistant."
By utilizing a specialized generative AI in departments related to information disclosure for shareholders and investors, such as the IR department of Konica Minolta, it is expected to promote the digital transformation (DX) of the tasks of the personnel in charge and to realize a system that allows them to focus on high-value-added information disclosure.

Exa Enterprise AI aims to unlock human potential and contribute to the realization of a society where people can face new challenges by providing AI services and products for productivity improvement in Japanese companies and organizations.

☑ Background
Konica Minolta places great importance on dialogue with shareholders and investors and is working to expand communication opportunities. With the increase in dialogue opportunities, the company has decided to implement the exaBase IR Assistant, a generative AI service specialized in IR operations, to streamline processes such as the creation of meeting minutes.

☑ Implementing exaBase IR Assistant
Since the release of the product version in October 2023, exaBase IR Assistant has been introduced to many Tokyo Stock Exchange-listed companies, including JR East Japan, Murata Manufacturing, Toyoda Gosei, Nagoya Railroad, GENDA, Tokai Tokyo Financial Holdings, Tokyu Corporation, Hikari Food Service, Seibu Holdings, Topcon, Kyocera, and Sumitomo Forestry, SG Holdings, Idemitsu Kosan, Shionogi, Mitsubishi Heavy Industries, multiple major financial institutions, comprehensive trading companies, telecommunications companies,

semiconductor companies, etc. It is used in many organizations responsible for general meetings of shareholders, such as IR, general affairs, legal affairs, management planning, and accounting.

☑ About exaBase IR Assistant

exaBase IR Assistant utilizes AI to generate meeting minutes from audio and video of IR meetings for analysis and potential questions. It also provides an AI that automatically generates anticipated questions and corresponding answers for financial briefings, shareholder meetings, press conferences, and other briefings using various IR documents as data sources and incorporating company-specific information.
In the future, Exa Enterprise AI will collaborate with external information sources and release new features for exaBase IR Assistant to support information disclosure practices of listed companies through "IR Tech."
