Notice Regarding Revisions to Dividend Policy (Increase in Dividend Payout Ratio)
and Dividend Forecast (Dividend Increase)

Strike Co., Ltd. (the “Company”) hereby announces that, at its Board of Directors meeting held today, it resolved to revise its dividend policy and raise the dividend payout ratio starting from the fiscal year ending September 30, 2025 as well as revise the dividend forecast per share for the fiscal year ending September 30, 2025, as described below.

1. Revision to the dividend policy

The Company considers profit return to shareholders a key management priority. Our fundamental policy is to allocate profits appropriately, while also enhancing internal reserves to strengthen our capacity to swiftly respond to business opportunities. In addition, we aim to maintain a return on equity (ROE) of around 25% to 30%.

Under the above policy, our dividend payout ratio had previously been set at approximately 35% of profit. However, to further enhance profit return to shareholders, we have revised the dividend payout ratio to approximately 50% of profit.

Furthermore, based on our current cash position and projected cash flows based on the medium-term business plan, the Company has decided to temporarily increase shareholder returns further for the next three years by setting the dividend per share at ¥180. In addition, should the dividend payout ratio fall below 50% in any given fiscal year, we intend to further increase the dividend from ¥180 per share.

Planned dividends for the next three years

	FY2025/9	FY2026/9	FY2027/9
Planned dividend amount	¥180.00	¥180.00	¥180.00
Projected dividend payout ratio (Note)	61.4%	56.9%	50.3%

Note: The projected dividend payout ratio is calculated based on the profit forecast in the medium-term business plan.

2. Revision to the dividend forecast

(Details of the dividend forecast)

	Annual dividends				
	1st quarter-end	2nd quarter-end	3rd quarter-end	Year-end	Total
	Yen	Yen	Yen	Yen	Yen
Previous forecast (announced on October 30, 2024)	—	0.00	—	102.00	102.00
Revised forecast			—	180.00	180.00
Results for FY2025/9	—	0.00			
Results for FY2024/9	—	0.00	—	91.00	91.00

(Reason)

In consideration of the revised dividend policy and our current cash position, among other factors, we have decided to increase the year-end dividend per share for the fiscal year ending September 30, 2025 from the previous forecast of ¥102 by ¥78, to ¥180.
