Notice of extension of exercise deadline for the 1st and 2nd stock acquisition rights

At the Board of Directors meeting held today, the Company passed a resolution to approve the extension of the exercise period for the first series of stock acquisition rights (stock options) resolved to be issued on February 26, 2010, and the second series of stock acquisition rights (stock options) resolved to be issued on April 22, 2011 (hereinafter, the "Stock Acquisition Rights"), and hereby announces the details as follows.

1. Reason for extension of the exercise period

The unexercised stock acquisition rights are 360 units (360,000 shares) in the first series and 24 units (24,000 shares) in the second series, totaling 384 units (384,000 shares). These were issued to encourage the maintenance of motivation and responsibility for improving the Company's performance, and many of them remain unexercised. On the other hand, as important matters such as the start of transactions for new projects are expected to continue to be considered, and in order to prevent insider trading and to reserve the sale of shares by insiders for the time being and to avoid stock dilution due to the exercise of the rights under the current circumstances, the exercise period of the stock acquisition rights will be extended as part of the change to April 30, 2030 for all stock acquisition rights except the 9th series.
