Comprehensive Management Support for Pure White Association Medical Corporation by Frontier Capital Inc.

Frontier Management Inc. (Head Office: Roppongi, Minato-ku, Tokyo; Representative Director: Akinori Nishida) consolidated subsidiary Frontier Capital Inc. (Head Office: Roppongi, Minato-ku, Tokyo; Representative Director: Shoichiro Onishi; hereinafter, "FCI") has decided to provide comprehensive management support and operational support (hereinafter, "Management Support, etc.") to Pure White Association Medical Corporation (Head Office: Nagoya, Aichi; Chairman of the Board: Kodai Higuchi, hereinafter, "Pure White Association") as follows.

Recently, with increasing awareness of the oral environment, including preventive medical care, periodontal disease treatment, and esthetic dentistry, the importance of the dental field has been increasing in order to extend the financial aspects of medical care and the healthy life expectancy. In this environment, in November 2013, Pure White Association opened the Aioi Clinic Aeon Mall Touin Medical Hospital (located on the first floor of the Aeon Mall Touin, 510-1, Nagafuke-tsukuda, Touin-cho, Inabe-gun, Mie). For more than 10 years, we have built up a track record and trust in dental care in the region, centered on Yokkaichi, Kuwana, and Inabe. In particular, taking advantage of Japan's largest site area and the number of in-hospital chairs (examined by MD Inc.) as a dental clinic in a nationwide commercial facility, we provide medical care for 0.1 million visiting patients annually until 20 o'clock nights without breaks throughout the year, which is an important part of the healthcare infrastructure that must be established in this region, and we have a high level of client satisfaction from local residents.

FCI will utilize the know-how accumulated over many years by the Frontier Management Group in providing consulting services, including management support, to the healthcare industry to promote the sustainable development of the Pure White Group and further improvement of services for patients. In turn, we will contribute to the development of the entire dental medical industry.

The concept of FCI is to contribute to the revitalization of local economies by providing support for resolving management issues from a long-term perspective, by investing people, know-how, and money to various entities with management issues, not limited to specific industries, areas, and industries. In the healthcare industry, where many small and medium-sized corporations and individuals operate and there is plenty of room for improvement through Management Support, etc. and other means, we will continue to actively consider providing Management Support, etc. to many medical-related corporations with the aim of supporting business succession needs and maintaining and improving sustainable community medical care.

FCI differs from conventional PE funds in that it focuses on long-term, sustainable growth from a managerial perspective through a variety of management support methods and teamwork of internal human resources. In response to the management issues faced by business support providers, each company in the Frontier Management Group will work together to provide management improvement know-how, abundant management personnel, and various networks to support long-term and continuous value enhancement.
