Announcement: Opening of UP GARAGE Ontario – Our Second U.S. Store

YOKOHAMA, Japan –UP GARAGE USA, CO., LTD., a subsidiary of UP GARAGE GROUP, CO., LTD., will open its second store in California, **UP GARAGE Ontario**, in November 2025.

UP GARAGE Ontario will be located inside the Central Auto Care complex in Ontario, California.

With this opening, the total number of UP GARAGE-branded locations will reach 269.

Located in the western part of California’s Inland Empire, Ontario is a key transportation hub where major highways I-10, I-15, and SR-60 converge. The new location is approximately 37 miles from our first U.S. store in Garden Grove.

While our first store is situated in **a traditional shopping plaza** alongside restaurants and supermarkets, the Ontario location will be part of **a specialized automotive complex**, offering a unique customer experience.

Spanning approximately 5,400 square feet, the store will feature popular services such as **wheel and tire test fitting**, which have been well received at our locations in Japan.

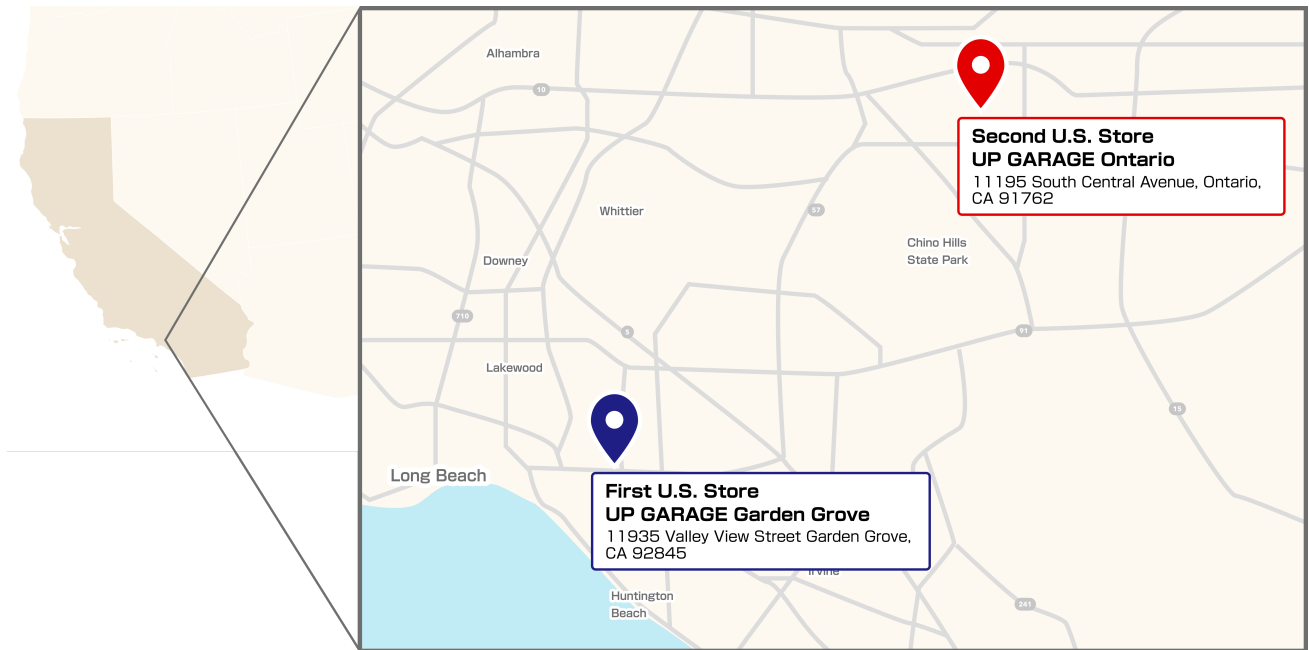

It will also provide ample storage space to support efficient inventory management and direct container shipments from Japan.

In addition to serving a distinct local market, the Ontario store will operate as a logistics and distribution hub, supporting our future expansion across the U.S.
