Notice Regarding the Occurrence of Finance Income (Foreign Exchange Gains)

We would like to inform you that finance income (foreign exchange gains) occurred during the third quarter of the consolidated fiscal year ending March 31, 2025 (October to December 2024).

Record

1. Recording of finance income (foreign exchange gains)

Due to foreign exchange gains recorded as finance income as a result of fluctuations in foreign exchange rates during the third quarter of the consolidated fiscal year, foreign exchange losses recorded in the interim consolidated fiscal year (April to September 2024) were offset, and foreign exchange gains of 532 million yen were recorded as finance income in the third quarter of the consolidated cumulative accounting period (April to December 2024). This is due to the revaluation of loans to overseas subsidiaries at the exchange rate at the end of the third quarter of the current consolidated fiscal year.

2. Impact on the Company's earnings

For information on the impact of this matter on the Company's consolidated operating results, please refer to the “Consolidated Financial Results for the Nine Months ended December 31, 2024 [Under IFRS]” disclosed today.

End
