2. Reason for revision of dividend forecast

Credit Saison believes that initiatives to strengthen its corporate structure and to continuously expand its business are important for enhancing shareholder value. Regarding the sharing of profits, the Company intends to secure sufficient internal reserves to achieve these objectives while providing appropriate, stable, and continuous dividends to its stockholders.

In the "Credit Saison Group Medium-Term Management Plan (FY2024-FY2026)," which began this fiscal year, the Company is maintaining its policy of stable and consistent dividends. Based on the target of a dividend payout ratio of at least 30%, the Company plans to increase the ordinary dividend by 5 yen per share from the most recent year-end dividend forecast, setting the year-end dividend at 110 yen per share.
