2. Reasons for the Difference between the Preliminary Financial Results for the Fiscal Year Ended March 31, 2025 and the Actual Results for the Fiscal Year Ended March 31, 2024

Operating revenue for the fiscal year ended March 31, 2025 increased 8.5% year on year. This was thanks to increases in commission received from sales commission and asset management fees of mutual funds, investment advisory fees from wrap products, and others, as well as recording revenue from funds in which our subsidiary has invested.

As a result, operating profit, ordinary profit, and profit attributable to owners of parent all increased year on year.
