* The ordinary revenues from the life insurance business, which constitutes the bulk of Sony Financial Group (“Sony FG”)’s operations, include investment income in separate accounts, and the percentage of investment income in separate accounts to ordinary revenues tends to be relatively high compared to peer companies. It is difficult to forecast future investment revenues because separate accounts are significantly affected by market fluctuations and other factors. Furthermore, the results and risks of asset management in separate accounts attribute to policyholders mainly in variable insurance and variable annuities, differing in nature from assets in the general account. Therefore, the Company does not disclose forecasts on ordinary revenues.

Consolidated ordinary revenues increased 19.4%, compared with the same period of the previous fiscal year (year-on-year), to ¥1,532.4 billion, due to an increase in ordinary revenues from the life insurance business, the non-life insurance and the banking businesses. Consolidated ordinary loss was ¥19.3 billion, compared to an ordinary profit of ¥25.6 billion during the same period of the previous fiscal year, due to a decrease in ordinary profit from the life insurance and the banking businesses, whereas ordinary profit from the non-life insurance business increased. Loss attributable to owners of the parent was ¥17.4 billion, compared to the profit of ¥17.8 billion during the same period of the previous fiscal year.

Ordinary revenues and ordinary profit/loss by business segment are as described below.

Ordinary loss was ¥31.7 billion compared to an ordinary profit of ¥9.7 billion during the same period of the previous fiscal year, mainly due to deteriorated gains/losses on sale of securities in the general account resulting from the sale of bonds for the purpose of rebalancing based on the ALM (asset-liability management) approach.

Non-life insurance business:

Ordinary revenues increased 12.9% year on year, to ¥93.0 billion, due to a steady increase in net premiums written centered on mainstay auto insurance. Ordinary profit increased 111.6% year on year, to ¥6.0 billion, due to a decrease in the loss ratio mainly resulting from a decrease in natural disasters.

Banking business:

Ordinary revenues increased 4.9% year on year, to ¥62.3 billion and ordinary profit decreased 42.7%, to ¥8.0 billion, due to a decrease in service revenues from mortgage loans and an increase in general and administrative expenses, while there was an increase in interest income such as interest income on loans and interest income and dividends on securities.

As a result of this change, as of September 30, 2025, securities decreased by ¥78,323 million, deferred tax assets increased by ¥22,659 million, and net unrealized gains (losses) on available-for-sale securities, net of taxes decreased by ¥55,664 million.

(Subsequent Events)

(Ceding of insurance policies)

Sony Life Insurance Co., Ltd. ("Sony Life") has entered into a reinsurance agreement to cede part of an in-force block of US-dollar-denominated whole life insurance policies through quota share reinsurance. The purpose of this transaction is to establish a financial structure that is resilient to fluctuations in the financial markets, and to increase the stability of its future earnings and future cash flows.

The outline of the reinsurance transaction is as follows:

(1) Transaction volume : Approximately ¥310 billion (policy reserve basis)

(2) Reinsurance premium : Approximately ¥200 billion

(3) Agreement date : October 2025

As a result of this reinsurance transaction, Sony FG expects its consolidated financial results for the fiscal year ending March 31, 2026 to reflect an increase of approximately ¥110 billion in both ordinary profit and profit before income taxes.
