Notice of "ChargeSPOT" Minimum Price Revision

We are pleased to announce that for our mobile battery sharing service "ChargeSPOT®," we will reintroduce a price tier of 165 yen for under 30 minutes starting at 9:00 AM on Thursday, May 1, 2025.

Last July, we changed the minimum rate from 165 yen for under 30 minutes to 330 yen for under 1 hour. This change was made in response to feedback that "30 minutes is too short to return the battery in time," and since over 60% of users were returning within 1 to 2 hours. However, since the price revision, we have received more feedback than expected that "a plan for short, casual use would be preferable."

We recognize that recent price increases have significantly impacted the younger generation, who frequently use "ChargeSPOT." By reintroducing the 165 yen fee for under 30 minutes, we aim to make it easier for users to access our service. Additionally, we plan to run a campaign during the “new life” season in March and April.

INFORICH will continue to strive for further installation expansion and improved user experiences, contributing to a stress-free society regarding charging, and promoting the sharing culture.

■ Revised Details
As outlined in the attached document.

■ Effective Date of Price Revision
For rentals starting from 9:00 AM on Thursday, May 1, 2025.

■ Future Outlook
The impact of this price revision on our group's consolidated earnings has already been factored into the earnings forecast disclosed today. If any changes are anticipated in the future, we will promptly inform you.
