“NINJA WiFi®” has begun “Smart Pickup” Locker service for visitors to Japan, allowing customers to pick up rental devices without waiting in line at the counter, and it starts at 7 airports.

Vision Inc. (Headquarters: Shinjuku-ku, Tokyo; President, Representative Director and COO: Kenji Ota, hereinafter Vision), which operates GLOBAL WiFi Business, Information and Communications Service Business, and Glamping and Tourism Business under the themes of “Connecting people, Connecting the world,” has begun “Smart Pickup” Locker service for “NINJA WiFi®,” a Wi-Fi rental service mainly for visitors to Japan, allowing customers to pick up rental devices without waiting in line at the counter. The service began accepting applications on January 30 and customers can pick up their devices from January 31.

The annual number of foreign visitors to Japan in 2024 was 36,869,900, approximately 5 million more than the previous record high of 31,882, 049 in 2019, setting a new annual record. (*1) Due to the strong inbound demand in recent years, an increasing number of people are choosing “NINJA WiFi®.”

Furthermore, it is expected that many foreign tourists will visit Japan for EXPO 2025 OSAKA, KANSAI, JAPAN to be held in April 2025.

Since the launch of its service, “NINJA WiFi®” has installed touchpoints at various locations across Japan, mainly at airports, where customers can pick up rental devices. Among them, at airports, we focus on installing the lockers at arrival floor and transit points in order to improve the environment to pick up rental devices anytime, covering the travel route for visitors to Japan. As part of this initiative, we have begun unmanned pickup service using “Smart Pickup” Lockers at Kansai International Airport, the closest airport to the EXPO 2025 site, as well as at major airports in Japan (Refer to Airports with “Smart Pickup”). We will continue to expand the number of locations where the lockers are installed.

At the same time, we have begun accepting up to five “SIM cards” via “Smart Pickup” in response to the needs of visitors to Japan. Through the locker pickup service, we aim to differentiate ourselves from our competitors and provide a more convenient and comfortable experience for foreign tourists visiting Japan, thereby increasing their satisfaction and expanding our business.

Steps from reservation to pickup

STEP 1
When placing your reservation, select "Smart Pickup" and select your preferred section (time slot). After your order is confirmed, a 2D code will be emailed to you the day before your pickup.

STEP 2
At the airport Smart Locker, open the email containing your 2D code. Please arrive during your designated time slot.

STEP 3
Insert the 2D code face-up into the reader/scanner located at the center of the locker.

STEP 4
Once your reserved locker lights up, retrieve your WiFi device from inside.

Vision will continue to expand our services to meet our customers’ needs while striving to improve network quality and expand available areas to provide a comfortable mobile Internet connection environment around the world.
