Notice Regarding Revision of Full-Year Consolidated Earnings Forecast and Dividend Forecast

ASKUL Corporation (hereinafter referred to as the “Company”) hereby announces that, at the Board of Directors meeting held today, it resolved to revise the full-year consolidated earnings forecast and the year-end dividend forecast for the fiscal year ending May 20, 2026, which were announced on January 28, 2026, as described below.

1. Revision of the Full-Year Consolidated Earnings Forecast

A) Revision of Full-Year Consolidated Earnings Forecast for the Fiscal Year Ending May 20, 2026 (From May 21, 2025 to May 20, 2026)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Basic earnings per share
	Million yen	Million yen	Million yen	Million yen	Yen
Previous Forecast (A) (Announced January 28, 2026)	—	—	—	—	—
Revised Forecast (B)	395,000	(20,500)	(22,000)	—	—
Change (B–A)	—	—	—	—	
Change (%)	—	—	—	—	
(Reference) Previous Fiscal Year Results (FY Ended May 20, 2025)	481,101	14,004	13,816	9,068	95.45

B) Reason for Revision

As previously announced on January 28, 2026, the Company withdrew its full-year consolidated earnings forecast for the fiscal year ending May 20, 2026, due to the difficulty in reasonably estimating future business performance following the system outage caused by the ransomware attack that occurred on October 19, 2025. However, based on the results for the third quarter and the business conditions in March, the Company has determined that it is now possible to reasonably estimate its future business performance. Accordingly, the Company has revised its forecasts for net sales, operating profit, and ordinary profit.

Profit attributable to owners of parent and basic earnings per share remain undetermined, as the Company is currently considering the selection and concentration of group companies and business restructuring based on the strategies of its Medium-Term Management Plan aimed at recovery from the fiscal year ending May 2027 onward.

The extraordinary losses related to the ransomware attack have been incorporated up to the third quarter. The Company will promptly disclose any further updates as soon as they become available.

2. Revision of the Year-End Dividend Forecast

A) Details of Revision of Year-End Dividend Forecast

	Annual Dividends Per Share		
	Interim (Second Quarter-End)	Fiscal Year-End	Total
Previous Forecast (January 28, 2026)		—	—
Revised Forecast (March 27, 2026)		¥10.00	¥10.00
Actual for the Fiscal Year Under Review (FY Ending May 20, 2026)	¥0.00		
Actual for the Previous Fiscal Year (FY Ended May 20, 2025)	¥19.00	¥19.00	¥38.00

B) Reason for Revision

As previously announced on January 28, 2026, the Company had left the year-end dividend forecast undetermined due to the difficulty in reasonably estimating future business performance following the system outage caused by the ransomware attack on October 19, 2025. Although an ordinary loss is expected for the fiscal year under review as described above, the Company has decided to revise the year-end dividend forecast to ¥10.00 per share, taking into account the expected recovery in business performance for the fiscal year ending May 2027 based on recent sales trends, as well as the Company's shareholder return policy and financial position.

Note:

The full-year consolidated earnings forecast and year-end dividend forecast presented above are based on information ASKUL has obtained to date. Actual results and dividend amounts may differ materially from these forecasts due to various factors.
