Regarding Extension of Yokkaichi Joint Venture Agreement

Kioxia Corporation, a consolidated subsidiary of the Company, and Sandisk Corporation announced today the extension of their joint venture agreements at Kioxia Corporation’s Yokkaichi Plant for an additional five years, from December 31, 2029 to December 31, 2034. As part of this renewed agreement, Sandisk Corporation will pay Kioxia Corporation USD 1.165 billion (approximately 178.2 billion yen*) in installments over the years 2026 to 2029 in accordance with the schedule below. The impact of this on the consolidated results of the Company for the fiscal year ending March 31, 2026 is currently being evaluated.

* 1 USD = 153 JPY

Payment period	Amount
April 15, 2026	US$ 175 million
December 1, 2026	US$ 200 million
December 1, 2027	US$ 230 million
December 1, 2028	US$ 260 million
December 1, 2029	US$ 300 million
Total	US$ 1,165 million

For details, please refer to the attached press release.

Kioxia and Sandisk Extend Yokkaichi Joint Venture Agreement Through 2034

Kioxia Corporation

Sandisk Corporation

Tokyo, Japan and Milpitas, Calif., January 29, 2026 – Kioxia Corporation, a subsidiary of Kioxia Holdings Corporation (TOKYO: 285A), and Sandisk Corporation (NASDAQ: SNDK) today announced the extension of their joint venture agreements at Kioxia's Yokkaichi Plant for an additional five years. Originally set to expire on December 31, 2029, the agreement will now run through December 31, 2034, marking another significant milestone in the companies' remarkable partnership spanning more than 25 years.

This extension underscores the deep collaboration between Kioxia and Sandisk, as they continue to leverage AI-enabled smart manufacturing and economies of scale to ensure stable production of advanced 3D flash memory. Their advanced 3D memory products are critical for addressing the growing demand driven by generative AI applications. Furthermore, the joint venture agreement for Kioxia's Kitakami Plant is aligned with the Yokkaichi agreement through December 31, 2034.

As part of this renewed agreement, Sandisk will pay Kioxia USD 1.165 billion for manufacturing services and continued availability of supply. These cash payments will be made in installments over the years 2026 to 2029.

"We are delighted to deepen our strategic partnership with Sandisk. We view this agreement not only recognizes the value of Kioxia's manufacturing operation, but also strengthens its profitability by leveraging economies of scale at the world's largest flash memory manufacturing facilities. By continuing to collaborate with Sandisk, we remain committed to delivering high quality flash memory products that drive the transformation of a digital society powered by AI," said Nobuo Hayasaka, President and CEO of Kioxia.

"The Kioxia-Sandisk JV continues to be a thriving collaboration across NAND R&D and manufacturing that has consistently delivered the highest performing, lowest cost NAND technology to both companies," said David Goeckeler, Chairman and CEO of Sandisk Corporation. "Started over 25 years ago when the NAND industry was nascent, it has now scaled to deliver hundreds of exabytes, and growing, to what is expected to be a $150B market in 2026. This next chapter of the partnership recognizes the scale of the operation and benefit each company receives from our continued collaboration. We look forward to our continued partnership into the next decade."

Kioxia and Sandisk remain committed to maximizing synergies through the continued co-development of 3D flash memory and joint investments aligned with market trends. Together,

they aim to bolster their competitive positions and reinforce their leadership in the global memory industry.

About Kioxia

Kioxia is a world leader in memory solutions, dedicated to the development, production and sale of flash memory and solid-state drives (SSDs). In April 2017, its predecessor Toshiba Memory was spun off from Toshiba Corporation, the company that invented NAND flash memory in 1987. Kioxia is committed to uplifting the world with "memory" by offering products, services and systems that create choice for customers and memory-based value for society. Kioxia's innovative 3D flash memory technology, BiCS FLASH™, is shaping the future of storage in high-density applications, including advanced smartphones, PCs, automotive systems, data centers and generative AI systems.

About Sandisk

Sandisk (Nasdaq: SNDK) delivers innovative Flash solutions and advanced memory technologies that meet people and businesses at the intersection of their aspirations and the moment, enabling them to keep moving and pushing possibility forward.
