Notice Regarding Order Received for AI Development Project for Next-Generation Unmanned Aircraft at Our Consolidated Subsidiary

Dodwell B・M・S Ltd. (Headquarters: Chuo-Ku, Tokyo; President and CEO: Hideyoshi Sasaki), a consolidated subsidiary of our company, is pleased to announce that it has received an order from Acquisition, Technology & Logistics Agency Air Systems Research Center for the "Project for the Creation of Flight Demonstration AI and Support for Flight Tests," in collaboration with Spakona Inc. (Headquarters: Shibuya- Ku, Tokyo; President and CEO: Taro Kawasaki), a capital and business alliance partner.

This project aims to research and develop artificial intelligence (AI) to be installed in unmanned aerial vehicles and to conduct flight demonstrations. Advanced verification using actual aircraft will be carried out over approximately three years.

■Background of the order

In recent years, research and development in the aviation sector has accelerated towards realizing next-generation systems that integrate manned and unmanned aircraft, and expectations are rising for advanced decision-making capabilities powered by AI as a core technology. It will be possible to make optimal decisions while considering the status of all aircraft and systems operating simultaneously.

■Order details

Contractor: Acquisition, Technology & Logistics Agency　Air Systems Research Center
Contract Details: Creation of flight demonstration AI for unmanned aircraft, and support and reporting services for flight tests
Contract Amount: ¥503,503,990
Delivery Date: May 18, 2029
