Acquisition of Shares of a Traffic Safety Company in South Korea and Vietnam

Sekisui Jushi Corporation (“SJC”) announces today that it has acquired shares of Hi-Q Co., Ltd. (“Hi-Q”), a South Korean traffic safety company engaged in the development, manufacture, and sales of traffic safety products and related operations in South Korea and Vietnam, as detailed below.

1. Reasons for Acquisition of Shares

The SJC Group has set forth “strengthening overseas expansion” as a core measure of its growth strategy in SJC Group Vision 2030, its long-term vision through which it aims to become “a corporate group that continues to ensure the safety, security, and comfort of people worldwide.” SJC has positioned the traffic safety business in particular as a priority business area where it can leverage the technologies, quality, and brand power it has built in Japan and expect growth in international markets. Among these markets, Asia is especially promising, as its traffic safety product market is expected to grow over the medium- to long-term on the back of expanding transportation infrastructure development driven by economic growth and urbanization, as well as growing social demand for traffic safety measures. The Group believes that seizing this growth opportunity is essential to the further development of its traffic safety business.

The Group has decided to acquire Hi-Q, which is engaged in the development, manufacture, and sales of traffic safety products and related operations in South Korea and Vietnam. Hi-Q, which has operated a traffic safety product business in the South Korean market for many years, possesses strong technological capabilities as well as a solid business foundation and has also built a manufacturing and sales system in Vietnam, making it highly compatible with the Group’s growth strategy for Asia.

Through this transaction, the Group will gain a development, manufacturing, and sales base in the South Korean market, as well as a manufacturing base with ample production capacity in Vietnam, which is growing in importance as a supply base for the Asian region. SJC has determined that this will allow the Group to optimize its regional production system and increase its supply capacity while strengthening the competitiveness of its traffic safety business.

Establishing a production system within Asia will also accelerate product development that meets market needs, while incorporating Hi-Q’s technologies, as well as its development and manufacturing capabilities, in blow molding and large-scale injection molding will expand the Group’s product portfolio, thus driving the sustainable growth of the business.

This transaction is not simply the acquisition of shares of a foreign company but a strategic investment to build and strengthen a growth foundation for the traffic safety business in Asia, aimed at achieving the growth strategy set out in SJC Group Vision 2030. Through this transaction, the Group will strengthen its business, technology, and supply foundations in Asia and capture growth in the Asian market to achieve sustainable growth in its traffic safety business and enhance corporate value over the medium to long term.

2. Overview of Hi-Q (as of December 31, 2025)

(Notes)

1. As Hi-Q does not prepare consolidated financial statements, the results of the two companies are presented separately.
2. Operating results and financial positions other than those above are not disclosed at the request of the counterparty.
3. Japanese yen figures in parentheses are calculated at the rate of 1 Korean won = 0.1158 yen.

3. Consideration for the Acquisition of Shares

58.0 billion Korean won (approx. ¥6.76 billion)

4. Schedule of Share Acquisition

(1) Date of resolution by SJC's Board of Directors	June 29, 2026
(2) Date of conclusion of the agreement	June 29, 2026
(3) Date of share transfer	October 6, 2026

5. Impact on Financial Results

SJC expects the impact of this transaction on its consolidated earnings forecast for the fiscal year ending March 31, 2027, to be minor, as it plans to account for the difference between SJC's fiscal year-end and those of Hi-Q and HIQ VINA* in its consolidation process.

SJC will announce any matters requiring disclosure that arise in the future as soon as possible.

* SJC's fiscal year ends in March, while those of Hi-Q and HIQ VINA end in December. As the share acquisition date is October 6, 2026 (deemed acquisition date: October 31, 2026), the impact on consolidated financial results is expected to be reflected from the fourth quarter of the fiscal year ending March 31, 2027.
