Core Concept Technologies Relocates Osaka Operations to New Umeda Office Shared by Three Group Companies

—Integrating Group Offices to Create Synergies and Strengthen Recruiting Capability

Core Concept Technologies Inc. (headquartered in Toshima-ku, Tokyo; Representative Director, President and CEO: Takeshi Kaneko; hereinafter referred to as "CCT"), which provides DX Support with a focus on the manufacturing, construction, and logistics industries, hereby announces that it will relocate its Osaka Office as described below and commence operations there on Tuesday, July 21, 2026. In conjunction with this relocation, Group companies Pro-X Co., Ltd. and Digital Design Services Co., Ltd. will also relocate to the same office, establishing a new office in Umeda, Osaka, which brings the three Group companies together in a single location.

■Background of the Relocation

The CCT Group has maintained multiple offices in the Osaka area, including those of companies that joined the Group through M&A. To strengthen collaboration among Group companies and enhance organizational capabilities, CCT is consolidating its Osaka Office together with the offices of Group companies Pro-X and Digital Design Services into the Umeda area. This will improve the efficiency of office operations, while strengthening sales collaboration and recruiting competitiveness. It will also promote active communication through the use of an open innovation space, further enhancing a sense of unity across the Group.

■New Office Overview

New Address: 10th floor of Umeda Daibiru Bldg., 3-3-10 Umeda, Kita-ku, Osaka-shi, Osaka 530-0001
Business Commencement Date: Tuesday, July 21, 2026
TEL: +81 6-6476-9691 (unchanged)
FAX: +81 3-6457-4355 (unchanged)

▼Access

- 4-minute walk from Osaka Station on JR lines
- 4-minute walk from Nishi-Umeda Station on the Osaka Metro Yotsubashi Line
- 5-minute walk from Umeda Station on the Hanshin Main Line
- 8-minute walk from Umeda Station on the Osaka Metro Midosuji Line
- 6-minute walk from Kitashinchi Station on the JR Tozai Line

■Consideration for Sustainability

The building housing the new office is powered entirely by renewable electricity, forming part of the CCT Group's efforts to reduce greenhouse gas emissions.

■About Pro-X Co., Ltd.
Representative: Takashi Ueyama, Representative Director, President
Founded: January 8, 2003
Business: Consulting services, commissioned system software development, information processing services, and more. The company specializes in sales and logistics systems, with particular expertise in building systems for the commercial distribution and logistics fields, and is working to create synergies with CCT by combining expertise and technology in the field of DX for the logistics industry.
