News Release

November 27, 2026

Nippon Electric Glass Co., Ltd.

# Establishment of the DX Strategy Division

Nippon Electric Glass Co., Ltd. (Head Office: Otsu, Shiga, Japan; President: Akira Kishimoto) will establish the DX Strategy Division to promote company-wide digital transformation (DX) and AI use.

Reporting directly to the President, the cross-functional division will develop company-wide DX and AI strategies and establish data governance. It will guide DX and AI initiatives across the company by analyzing initiatives, advising departments, coordinating their efforts, and supporting implementation. It will also lead some projects directly.

**Main Responsibilities**

- Develop company-wide DX and AI strategies and roadmaps
- Establish data governance
- Promote DX in development, manufacturing, and back-office operations
- Develop and deploy environments for digital tools, data analysis, and AI use

**Period**

Effective January 1, 2027
