NHK SPRING Decides to Invest in Kanagawa Prefecture's "Green Bonds"

NHK SPRING CO., LTD. (Head Office: Yokohama; President & COO: Kazuhisa Uemura) is pleased to announce its decision to invest in green bonds issued by Kanagawa Prefecture for the fifth consecutive year.

Kanagawa Prefecture is a key business area for the NHK SPRING Group, with approximately 5,000 employees—about half of the Group's employees in Japan—working at 26 sites in the Prefecture. In addition to initiatives aimed at achieving a decarbonized society by 2050, the Prefecture is advancing disaster prevention and mitigation measures for rivers, erosion control, forests, coastlines, roads, and other infrastructure in preparation for increasingly severe and frequent natural disasters caused by climate change, including torrential rain and typhoons.

Through this investment, NHK SPRING aims to support these initiatives and contribute to enhancing the sustainability of the local community, thereby pursuing the continuous development of its business together with the region.

< Bond Overview >

Name	Kanagawa Prefecture's 7th 5-year publicly offered municipal bonds (green bonds)
Maturity period	5 years
Issue amount	JPY 13 billion
Issue date	October 27, 2026

The proceeds from the bonds will be used to finance the environmental initiatives undertaken by Kanagawa Prefecture as outlined in the table below.

Anticipated Impacts of Climate Change	Eligible Projects and Overview
River Flooding	➤ Development of flood-retention basins and improvements to bottlenecks in river channels ➤ Enhancement of river disaster prevention measures
Debris Flows, Landslides, and Related Hazards	➤ Development of sediment disaster prevention infrastructure ➤ Development and reinforcement of forest conservation and forest road infrastructure ➤ Development and reinforcement of agricultural water-management infrastructure
Storm Surges and High Waves	➤ Development of coastal protection infrastructure ➤ Enhancement of disaster prevention capabilities at fishing ports and related facilities
Impacts on Urban Infrastructure (Transportation) and Daily Life	➤ Enhancement of road disaster prevention
