Regarding the KPIs for each business in May 2026, all major indicators exceeded the results of the same month last year, continuing to show steady progress.

Notably, the Number of Marriage Meetings, which serves as a leading indicator for the Number of Couples, reached 102,013 (+14.5% year-on-year), successfully surpassing the 100,000 mark. This was driven by highly active member activities during the Golden Week holidays and a steady increase in the Number of IBJ Registered Members. Furthermore, the strong performance of these indicators is expected to lead to the creation of even more marriages in the future. In addition, the Number of IBJ Paying Members, which serves as our foundation for continuous stock revenue, reached 103,200 (+34.7% year-on-year), demonstrating a steady enhancement of our value as a platform.

On the other hand, regarding the number of affiliated marriage agencies, although it exceeded the level of the same month last year, it decreased month-on-month (compared to April) due to a decline in the number of new consultations generated through marketing.

Additionally, regarding the Number of New Members, although enrollments from a major marriage agency with which we have a capital and business alliance remain on a downward trend, initiatives implemented at our directly-managed store "ZWEI" in anticipation of the Golden Week holidays proved

highly effective. As a result, the number exceeded the same month last year, reaching 6,899 (+3.6% year-on-year). Going forward, we will continue to maximize marriage opportunities and achieve sustainable profit growth through the expansion of services that leverage the scale of our network.

※ Monthly data are preliminary figures and may differ from those at the time of financial results announcement.

※ The "Number of Couples" is the total of 896 couples (+17.9% year-on-year) whose pairing has been confirmed within the IBJ service, and the number of marriages from members who submitted a notification of marriage withdrawal but whose pairing remains unconfirmed.
