Announcement of the Start of Operations at Shichijo Plant No.2

We are pleased to announce that, following the completion of renovation work, the Company has commenced operations at the “Shichijo Plant No.2,” which was acquired in October 2025^{*1}.

At this plant, we will establish a production system for the mass production of control panels and other products, including production for external sales. We will also strengthen initiatives to achieve the goals of our Medium-Term Management Plan, namely the expansion of the mass production business and the development of new business units.

In addition, by transferring certain functions to this plant, we will utilize space at Kumamoto plant to consolidate semiconductor-related production sites and improve production efficiency.
Furthermore, in conjunction with the start of operations at Shichijo Plant No.2, the existing Shichijo Plant (the “former Shichijo Plant”) has been renamed the “Shichijo Plant No.1.”

*For reference: [Announcement of Acquisition of Fixed Assets \(Land and Buildings\)](#)

I. Overview of Shichijo Plant No.2

1	Plant Name	Shichijo Plant No.2
2	Location	1241-6, Sozaki, Shichijo-machi, Kikuchi City, Kumamoto Prefecture (Located near our existing Shichijo Plant)
3	Site Area (Land)	30,657 m ²
4	Total Floor Area (Building)	10,113 m ²
5	Main Products	Control panels, electric motion components (“EcoElectric series”), medical and chemistry and physics devices, etc. The functions related to these products will be transferred from Kumamoto plant.

II. Opening Ceremony

An opening ceremony was held on Monday, June 15, 2026.

On the day, in addition to the Company's executives and employees, related parties were in attendance, and we announced the opening of the new plant.
