Notice Regarding Differences Between the Forecast and Actual Results for the First Nine Months of FY2026

The Company hereby announces that differences have arisen between the consolidated financial results forecast for the first nine months of the fiscal year ending December 31, 2026, announced on August 12, 2026, and the actual results announced today, as described below.

1. Revisions to Earnings Forecasts

Revised consolidated earnings forecasts for the cumulative third quarter of the fiscal year ending December 31, 2026 (January 1, 2026 to September 30, 2026)

2. Reason for revision

Net sales exceeded the previously announced forecast due to higher-than-expected production of probe cards for memory applications in the Probe Card Business, as well as the earlier-than-planned recognition of sales for certain products that had originally been scheduled for the following quarter.

With respect to profits, operating profit exceeded the previously announced forecast due to changes in the product mix and selling, general and administrative expenses being lower than expected. Ordinary profit and quarterly profit attributable to owners of the parent also exceeded their respective previously announced forecasts.
