Menicon Collaborates with Zevero to Enhance Global ESG and GHG Management Framework Using AI

Menicon Co., Ltd. (hereinafter, "the Company") announced a collaboration with Zevero, a global startup supporting decarbonisation management.

Through this collaboration, the Company will establish integrated management of greenhouse gas (GHG) emissions (Scopes 1-3) across all global sites and a consistent management platform for ESG information. This will incorporate international sustainability disclosure standards, including the SSBJ (Sustainability Standards Board Japan) standards and the European CSRD (Corporate Sustainability Reporting Directive), as a prerequisite for management decisions. This aims to achieve sustainable growth unaffected by regulatory trends and enhance competitiveness in the global market.
