Notice Regarding Investment in MEM Dental Technology Co., Ltd.

SHOFU INC. (Head Office: Kyoto, Japan; Representative Director, President and CEO: Tetsuo Takami; hereinafter, the “Company”) hereby announces that it has subscribed to a third-party allotment of new shares issued by MEM Dental Technology Co., Ltd. (Head Office: Tainan, Taiwan; Chairman and General Manager: Michel Wei; hereinafter, “MEM”), a Taiwanese manufacturer of orthodontic materials and has acquired shares of MEM.

Through this investment, the Company aims to establish a medium- to long-term strategic partnership with MEM.

1. Purpose of the share acquisition

The Company recognizes orthodontic treatment as a growth field in which continued demand is expected. In addition to expanding its business in the Japanese market, the Company is strengthening its orthodontic business with a view to future overseas development.

Against this backdrop, MEM has earned a strong market reputation for its advanced technological capabilities and high-quality orthodontic products, including ceramic brackets. In addition, MEM has developed next-generation manufacturing technologies utilizing 3D printing, designs and manufactures aligners, and maintains a technical manufacturing base in Japan. The Company therefore considers MEM to be a strong partner in the field of orthodontics.

MEM’s products hold an important position in the Company’s orthodontic business, and further collaboration is expected in the future. Bracket products, in particular, form the foundation of the Company’s orthodontic business and play an important role in establishing a stable supply system and achieving medium- to long-term business growth.

The purpose of this investment is to further strengthen the Company’s cooperative relationship with MEM and deepen collaboration in product development and business development, thereby further growing the Company’s orthodontic business and enhancing its competitiveness. At the same time, the Company will strengthen its business foundation with a view to global expansion.
