# Announcement of the Execution of a Strategic Tripartite Partnership Agreement with House of Doge and abc Co., Ltd.

**— Exploration of Potential Future Collaboration in the Dogecoin Ecosystem and RWA Domain —**

ReYuu Japan Inc. ("ReYuu Japan") hereby announces that it has entered into a non-binding strategic tripartite partnership agreement with House of Doge ("HoD") and abc Co., Ltd. ("abc"), for the purpose of exploring potential future collaboration related to the Dogecoin ecosystem and the Real World Asset (RWA) domain, as outlined below.

The impact of this agreement on the Company's consolidated financial results is expected to be immaterial.

## 1. Purpose and Background of the Agreement

This agreement establishes a framework for discussions and consideration of

potential future collaboration in the Web3 and RWA domains centered on the Dogecoin ecosystem, by leveraging the respective expertise and networks of the three parties.

Dogecoin is a crypto asset that has evolved against the backdrop of internet culture and has grown supported by an active global community. In recent years, interest has increased in its potential applications for payments and broader use cases, including within the Web3 technology domain, with certain real-world payment acceptance examples being discussed.

House of Doge operates as the official corporate arm of the Dogecoin Foundation, which engages in activities aimed at supporting the healthy growth of the Dogecoin ecosystem and its broader real-world adoption.

As ReYuu Japan advances its business development efforts in the crypto asset and Web3 fields, the Company commenced discussions with House of Doge through abc. Taking into account the regulatory environment and business feasibility in the Japanese market, the three parties have agreed to explore potential collaboration under this partnership framework.

## 2. Expected Roles of Each Party

The roles contemplated under this agreement are as follows:

≪ReYuu Japan≫

ReYuu Japan is positioned as a partner participating in discussions and consideration of initiatives related to the Dogecoin ecosystem and RWA from the perspective of business development and localization in the Japanese market.

≪abc≫

abc participates as a partner providing specialized expertise in the Web3 and RWA domains, including token economy design, smart contract development, and regulatory compliance.

≪House of Doge≫

HoD serves as a liaison to the Dogecoin ecosystem, providing global networks and knowledge, and participates in discussions regarding potential collaboration aimed at future ecosystem expansion.

## 3. Outlook

The impact of this matter on our business performance is expected to be minimal.

## Important Notes

- This agreement does not obligate any party to engage in any investment, issuance, purchase, sale, or other transaction at the current stage. Any concrete initiatives will be subject to separate agreements and the completion of internal approvals by each party.
- The information contained in this release is current as of the date of publication and may be subject to change due to future developments.
- This press release is provided for informational purposes only and does not constitute a solicitation to acquire or dispose of any crypto assets.
